## 3000 Series Bonded Window

F = Fixed, V = Vent, E = Egress Panel

As the long standing leader in windows for the recreational vehicle and manufactured housing industries, Kinro brings another high quality product to the market. Introducing the 3000 Series Bonded window.

With no bulky outer frame, the window's clean flush exterior creates an automotive look enhancing the overall appearance of the coach. The hidden hinge adds to the overall clean look while not sacrificing function allowing ample ventilation. Finally, its glass penciled edged perimeter creates a smooth clean edge giving the window a look never before seen on an RV. Other features include:

- ▶ Removable screens on all vents
- ▶ Standard clamp ring installation available for various wall thickness.
- ▶ Available with single or dual glazed glass panels.
- ▶ Egress panels exceed RVIA requirements
