Designed for reliability.

## 2800 Series Euro-Style Acrylic Window

Kinro, long being the industry leader in RV and MH windows, is proud to introduce the latest addition to their RV window line, the 2800 Series Acrylic Window.

This window was designed around familiar Euro-style concepts, but with the quality and engineering that you have come to expect with Kinro. Consider the following advantages:

*Four latches make for a tight and secure seal.*

- Double glazed (or dual pane) grey acrylic panel is considerably lighter than traditional windows.
- Grey tinted acrylic offers more privacy than clear windows.
- Provides excellent thermal insulation for energy savings.
- Automotive low-profile design.
- Aluminum frame provides simple, quick and secure mounting in RV wall.

*Replaceable latch handles*

Kinro Inc reserves the right to change sizes or details without notice. The customer assumes all risk for alterations made to Kinro products.
